EDUCATION

Imperial College London **2023 - 2027**
MEng Electrical and Electronic Engineering with Management
Expected: First Class Honours | Year 3 Average: 76% (Dean's List)
Relevant Modules: Machine Learning, Deep Learning, Corporate Finance, Accounting, Project Management, Entrepreneurship

George Green's School **2020 - 2022**
A-levels: Mathematics (A*), Economics (A*), Physics (A)
GCSEs: 10 GCSEs, including five Grade 9s and three Grade 8s

PROFESSIONAL EXPERIENCE

Power Electronics Engineering Intern | Technelec **April 2026 - September 2026**
Selected as one of two interns at a specialist engineering consultancy founded by Imperial College London PhD alumni.

- Recommended an inverter redesign that reduced simulated semiconductor temperatures from 217°C to 123°C, balancing thermal performance against limited circuit-board space; presented findings directly to clients, who adopted the recommendation.
- Developed an LTspice-based MOSFET benchmarking tool to improve an existing Excel method reliant on simplified datasheet parameters, reducing comparison time by approximately 50% and enabling more realistic performance analysis; tool subsequently adopted by the firm.
- Contributed to the design and optimisation of inverter systems across diverse applications, including electric turbochargers, drones and humanoid robotics, adapting technical solutions to differing performance and design requirements.
- Received a graduate return offer following the six-month placement.

Data Science Work Experience | Abound **June 2024**

- Applied Python to analyse customer transaction data and identify patterns associated with credit risk, gaining insight into how machine learning supports lending decisions at a rapidly growing fintech startup.

Waiter | The Sushi Bar **October 2022 - June 2025**

- Balanced regular part-time employment alongside a demanding engineering degree at Imperial, using earnings to contribute towards tuition fees and living expenses.
- Resolved customer complaints and managed competing requests during busy service periods, maintaining service quality while coordinating with colleagues.

LEADERSHIP & EXTRACURRICULAR

Founder & Youth Programme Lead | Madina Masjid, Tower Hamlets **June 2023 - Present**

- Founded a community youth programme to address the loss of structured activities following the closure of local youth provision, establishing regular educational, social and recreational opportunities.
- Conducted primary research through attendee feedback and discussions with parents and local teachers to tailor youth programmes, contributing to a 250% increase in regular event attendance from approximately 20 to 70 participants.
- Led approximately 12 volunteers in delivering three major youth events, adjusting event timings, venues and activities to balance costs, accessibility and expected attendance while coordinating transport and bookings.

Team Lead | Imperial College Robotics Competition **February - March 2026**

- Led a three-person team to secure 2nd place out of approximately 25 teams in an Imperial robotics competition, developing and demonstrating an autonomous robotic manipulation system.
- Introduced a shared scheduling system to manage conflicting academic deadlines, reallocating tasks across the team to complete development ahead of competing teams and allow additional time for testing and refinement.

Alumni Tutor | The Access Project **October 2022 - Present**

- Delivered personalised one-to-one A-level Mathematics and Economics tutoring to 10+ students from disadvantaged backgrounds, adapting teaching methods to individual learning needs.
- Helped six students improve their achieved A-level grades by two grades, tracking academic progress, coordinating sessions and liaising with teachers to address learning gaps.

ADDITIONAL INFORMATION

Skills: Excel, PowerPoint, Python, MATLAB, C++, LTspice

University Activities: Peer Mentor, Imperial College Mum and Dad Scheme (2025–Present); Member, Imperial College STEMM Society

Interests: Football, badminton, reading history and literature, learning Arabic
