Experience

Medical Elective Intern, Boston Consulting Group **April 2026 - May 2026**

- Owned regional readiness for 4 User Organisations within a multi-firm consortium implementing a new HR system for one of the world's largest employers, improving project status from 25% to 100% 'on-track' over 2 months
- Built a reference guide standardising required meetings, trackers, procedures and ownership; presented at a cross-team meeting leading to adoption across other regions
- Gathered primary data on merging organisations' technical and organisational structures and built analysis for mergers working group, informing eventual decision to exclude them from the programme
- Triaged and escalated RAID log risks to regional and national leadership

Resident Doctor, Newham Hospital - Barts Health NHS Trust **July 2026 - present**

- Investigate and diagnose incoming emergency cases, gathering and synthesising information from multiple sources under time pressure to determine treatment plans
- Manage a live task list across ~20 surgical patients as part of a 4-person team, continuously reprioritising based on urgency and coordinating with 10+ wider professionals to ensure safe and efficient patient flow
- Currently conducting a gap-analysis audit benchmarking local procedural sedation practices versus national guidelines to flag inconsistencies in implementation

Education

MBBS Medicine, Imperial College London **September 2020 - June 2026**

- Qualified as a physician after six years of clinical training across medical and surgical specialties in hospitals across London
- Identified that patients had been missing appointments due to poor awareness of existing transport support rather than a lack of provision; designed a signposting resource adopted across GP practice consulting rooms, earning a university 'Highly Commended' award for expanding access to care

BSc Medical Sciences with Management, Imperial College London **September 2023 - June 2024**

- Graduated with First Class Honours and nominated to the Dean's List for Academic Excellence for performing in the top 10% of the cohort
- Co-authored published quantitative research in BJGP Open, leading data collection and contributing to analysis and write up; identified that deprivation significantly reduces primary care performance and produced recommendations to reduce the performance gap

Leadership

International Athlete, GB Rowing Team **2019 - 2025**

- Led crew teams as coxswain for the GB U23, Student, and Junior Rowing Teams to elite international victories, capturing a FISU World University Championship, U23 World and European Championship medals, and a Henley Royal Regatta win alongside academic commitments
- Held full autonomy to make real-time tactical calls during international races, reading competitor positioning and live performance data to translate pre-race strategy into on-the-spot decisions
- Brought together composite national team crews from multiple clubs around shared performance and behaviour standards, set through group discussion and reinforced through direct, honest feedback

Captain, Imperial College Boat Club **2023 - 2024**

- Elected to lead a 100+ member organisation, directly managing a £160k annual operating budget and advising on a £1m trust fund and £300k university budget
- Led the launch of a new alumni organisation, coordinating across stakeholders including university administration, archivists, and coaches to engage a 500+ network and execute a 120-guest dinner
- Aligned coaching staff and rowing squad, resolving disagreements and setting shared standards of discipline and training ethic while running full logistics for a 50+ member novice programme
